FOSSASIA OpenTechSummit is Asia's leading Open Technology conference for developers, companies, educators, and IT professionals since 2009.

During the summit, developers, technologists, scientists, and entrepreneurs convene to collaborate, share information and learn about the latest in open technologies, including Artificial Intelligence software, DevOps, Cloud Computing, Database, Linux, Science, Hardware, and more. Participants at the event also discuss open source business opportunities, policies and best practices and topics such as privacy, data protection and digital sovereignty.

Asia's best and brightest Open Source developers will gather for the event.

- ★ Artificial Intelligence
- ★ Blockchain
- ★ Cloud, Containers and DevOps
- ★ Kernel and Platform
- ★ Database
- ★ Digital Sovereignty
- ★ Security and Privacy
- ★ Tech Community
- ★ Open Source Hardware
- ★ Open Source Enterprise
- ★ Web & Mobile Technologies

FOSSASIA offers sponsors unique opportunity to tap into the world's fastest growing markets, discover new business opportunities, increase awareness for products among technology multipliers and recruit outstanding talents.

FOSSASIA Summit Highlights

FOSSASIA held its first summit in 2009. For over a decade, FOSSASIA Summit continues to be a platform for fostering open source technology and collaboration across Asia. Feedback from attendees has been overwhelmingly positive. The top reasons that people attended FOSSASIA Summit were to attend tech sessions and workshops, for networking and for recruitment purpose (both recruiters and job seekers).
